In the final hour the market took a more favorable turn, and advances were extended fractionally, while some of the earlier declines were recovered. The trading was chiefly on an evening-up order, and for the purpose of giving the warket a good close before adjournment, as an ald to a turn for the better with the resumption of business next week.

NEW YORK, April 16 .- One can obtain any kind of an opinion on the future of the market, by simply discussing the situation with a number of commission houses, brokers, etc. "The buils find much that is satisfactory to there is little consolation in the day's gains for the bears;" market will advance after the adjournment:" "railroad earnings are bad and many railroads need extensive improve-

is simply a case of paying your money and taking your choice. If the big men of New York are inclined to stand under the market and, Atlas like, hold it up by main strength, they can do it, at least until some untoward influence turns the tide the other way. On the other hand there is no public demand for stocks. Railroad earnings are poor. The pool to maintain prices in steel and iron products is disintegrating, and it is officially announced that a cut of \$2 to \$8 a ton is being made by the American Bridge Company, and all other companies are in the scramble for

The determination to hold prices of product has been altered to a determi-

The determination to hold prices of product has been altered to a determination to hold the market values for Steel stocks—another, matter but one that can be carried to a conclusion much more successfully than the proposition to hold prices. So long as there is no serious break in the prices of Steel shares there will be no flood of stock on the market and the insiders seem to have the matter well in hand.

There wasn't enough doing on the market this morning to make it interesting. The exchange will, in common with other exchanges, be closed tomorrow and Saturday, and there will not be much doing today. Manipulation advanced prices materially in Union Pacific, Manhattan, Interborough, and Canadian Pacific. The general market leaders, St. Pul, Reading, Northern Pacific, and Pennsylvania, made gains during the morning of ½ to %.

As the session advanced the market seemed to take on new strength. Some

ring the morning of ½ to %. As the session advanced the market comed to take on new strength. Some orts started to cover, evening up for e holidays, and the result was an excision of the advances of the earlier ours to a good point on the market

leaders, Copper, Smelter, and Sugar joining the advancing group, while Manhattan extended its gains to four points. Steel, common, was a little firmer, and the preferred a little easier. Lead was weak.

Very many stocks on the list were not mentioned on the market up to 1 o'clock, and, if the volume of business increased, it was more in the trade in a few favorites than a well sustained and distributed movement throughout the list.

NOT SO BAD AS EXPECTED.

Many things seem greater by imagina-ion than they are in effect. I have assed a good part of my age in a per-ect and entire health. I say not only enfree and entire health. I say not only en-tire but sprightly and wanton. This state is so full of verdure, jollity, and vigor, made the consideration of sickness so horrible to me, that when I came to experience it, I found the attacks faint and easy, in comparison of what I had feared.—Montaigne.

There was nothing in the late news Traction Shares Steady. In the late news of Importance sufficient to affect the narket one way or the other. Gas Active at 61-Tone of Market Good-Adjournment Till Monday.

> transacted on the local Stock Exchange, Riggs a diversified business with sales of secu rities of ten different corporations. It looked like a genuine investment inprices were strong and well maintained throughout. It was a much better ante-478 923 holiday market than is generally ex-pected.
